

The Daily Gazetteer.

FRIDAY, OCTOBER 8. 1742.

Yesterday arrived a Mail from Flanders, and Two from France.

Petersburg, Sept. 16.

HE Court has caused to be published an exact Account of all that has hitherto passed in Finland. M. Nolken is again on the Road to Moscow, in order to put the last Hand to a Treaty of Peace, which we look upon to be already as good as concluded; because the Swedish Prisoners that are here have

had Notice to provide for their speedy Return home. Orders have been also dispatch'd from our Admiralty, for the Return of the Fleet to Cronstadt.

Stockholm, Sept. 25. Commissioners have been appointed within these few Days for assigning Quarters to the Troops which arrive here from Finland. The Friends of Count Lewenhaupt alledge, that the Army has been so harassed by Epidemic Diseases, and the Supplies expected were so unluckily detained by foul Weather, cross Winds, and other Accidents, which in a Manner disabled the Fleet, that it was impossible he should do more than he did. It is, however, certain, that this Nobleman knowing how much he was hated by the Common People, had once resolved to withdraw himself; but hearing that many Things were laid to his Charge, as gross in Nature as false in Fact, he determined rather to risk his Person than his Reputation, and is therefore come hither in order to defend himself against what shall be objected to him before the Senate. It is now openly said, that the late Campaign in Finland was a mere Farce, acted by the Friends of the Duke of Holstein, to oblige those in the Opposition to consent to his Succession. The Ministry having, for good Reasons, excluded the fourth Order from the Secret Committee, the Peasants have protested against it as an Act of Injustice. Several Parties are form'd against the Duke of Holstein, notwithstanding which his grows stronger every Day.

Naples, Sept. 18. Their Majesties enjoy perfect Health, but the Serene Infanta was Yesterday taken dangerously ill. Trade is now returned in a Manner into its old Channel, but we are still under some Disquiet on account of English Ships which from time to time appear in the Gulph. The Government neglects nothing that can be thought of, to put this Place into a Posture of Defence, without reflecting that a seditious City never can be defended. The Artillery arrived from Lombardy has been immediately sent to the Fortresses of this Kingdom, and the Train at Brindisi has been debarked, and carried up into the Country Thirty Miles. The Troops are not now to encamp, as was at first intended, but are to go into Garrison, according to a Plan settled with the Duke de Caffropignano. We are still busy in apprehending suspected Persons, which many who are very loyal see with Regret, as well knowing that a Government is then in the greatest Danger, when its Subjects are compell'd to dissemble their Sentiments, and so leave no Means of distinguishing the Bad from the Good. Some incline to think there is a Misunderstanding between our Court and that of Spain; that some new Negotiations are on the Carpet; and that, for the future, the Court of Dresden will have strong an Influence on our Councils as that of Madrid.

Rome, Sept. 22. On the 4th Instant his Holiness made an Enquiry into the Affairs of the Rev. Father Ignatius de Azuredo, and Thirty-nine other Jesuits, who were thrown into the Sea for preaching the Gospel in Brasil, in the Year 1570. After the accustomed Ceremonies, and Inspection of the Acts and Evidences of their Preaching, Tortures and Death, his Holiness declared them Martyrs; and there is now nothing wanting to their Canonization, but the Proofs of Signs and Wonders wrought by them or their Relicks, pursuant to the Decree of April 23. 1741. The Whole was conducted with great Solemnity in the Church of St. Andrew belonging to the Jesuits, where the Pope said Mass, and then declared them Martyrs.

Bologna, Sept. 25. The Austrian Hospital which was a Mile from hence, is now just at our Gates. The Piquets there are re-inforced, and the March of the Invalids for Modena is suspended; all which are indubitable Proofs, that the Army is shortly to return into our Neighbourhood, and indeed within these few Days several Detachments are arrived; so that we reckon the Spaniards must be Corquerors before they take Quarters quietly.

Berlin, Oct. 2. His Majesty is expected here this Day from Silesia. We take it for granted that Articles from hence will for the future contain Matters of Importance,

the Presence of our King being always attended either with Negotiations or Expeditions. A certain Publick Minister here asserts, the Garrison of Prague consisted at the Beginning of the Siege of 16,000 or 17,000 at most, and that their Loss amounts to 6000.

Dresden, Oct. 2. His Majesty has caused the Peace concluded with the Queen of Hungary and Bohemia to be published with great Solemnity; which shews how satisfactory it was to the Court as well as to the People. The Duke de Brissac, the Marquis de Beauveau, and Count Schmettau, arrived this Day from Prague, under a good Escort, which immediately return'd in order to get again into the City. Their Majesties and the greatest Part of the Court are set out this Day for the Fair at Leipzich, where they are to continue for some time, as appears by the Preparations made for their Reception, and by their taking with them their Musick, &c. together with a great Retinue.

Paris, Oct. 8. There have been apprehended here within these few Days a great Number of Villains, who made it their Busines to rob and to assassinate People in the Streets with heavy Clubs. A few Nights ago they assassinated a Gentleman belonging to the Court at his own Door. It is scarce possible to express the Terror these abominable Rascals spread, who render it absolutely unsafe to be out of Doors after 'tis dark. It is thought the Government must have recourse to some extraordinary Remedy. We begin to be very uneasy here as to Don Philip; his Person is said to be absolutely out of all Danger, but as the Ministry are determined to avoid a War with the King of Sardinia, it is not doubted that Monarch will very soon drive the Spaniards out of Savoy, and find a Way besides to revenge himself for the Insult. Some think the Court is in reality apprehensive of a Design on Toulon; but this must be without Foundation, since 45 Battalions are ordered out of Provence and Languedoc to strengthen the Army of M. Noailles. It is reported that Cardinal Fleury, beginning to apprehend the great Respect paid him is out of mere Ceremony, and that his Councils are now no longer receiv'd as Oracles, has determin'd to retire from Busines, and pray that Providence may repair his Errors.

Hague, Oct. 11. Things remain still in a very uncertain Situation. We have the Comfort of knowing they must soon be explain'd. Lord Carteret has certainly succeeded in his main Busines, and on his Return to London a very grand as well as unexpected Scene will open, and the World be convinced, That Politicians are the Growth of other Climes than France and Italy.

Extract from the Paris Almanac.

* Paris, Oct. 12. We learn from Bohemia, that Mr. de St. Valier Marshal de Camp was killed by the Side of the Count de Marsan, as they were visiting a Post together. He was accompanied by the Chevalier de St. Valier his Aid de Camp, and the Marquis de Limpus Major of the Regiment of Bretagne, his Nephew, who carried him off notwithstanding the continual Fire of the Enemy. He is much regretted by Marshal Maillebois and the whole Army.

* We continue to apprehend daily great Numbers of Street Robbers, who commit Assassinations in the Night. This Mischief is at last come to such a Height, that it has been resolv'd to make a Draught of a certain Number of Men from the Invalids, in order to patrol about the Streets. Each House is to be charged at the Rate of Thirty-pence per ann. for the Pay of this new Guard. His Majesty has granted a Commission to the Lieutenant-Criminal to try these Russians, without Appeal. It is said that the Number of those already taken falls very little short of 300. M. de Nangis, Marshal of France, died at Versailles on the 8th of this Month, within a Year of Four-score.

The Finland Regiments which have submitted to her Imperial Majesty of Russia, and taken an Oath of Fidelity to her, amount to 7000 Men; that is, so many are on the Muster-Roll of those Regiments, and come in, as Opportunity offers, to the Russian Commissioners, and qualify themselves.

Part of her Imperial Majesty's Baggage is actually arrived at Petersburgh, and the last Letters from thence say, she was expected there before the Close of the current Month.

The Hanoverian Minister was the only Negative Voice in the Electoral College, when the late Supply of 50 Roman Months was given to the Emperor.

Some French Officers lately arrived from Prague at Ratisbon, give dreadful Accounts of the Hardships they sustained. They affirm that at last a Pound of Beef sold for eleven Crowns, a Quart of Milk for a Crown, a Pullet for two Crowns, and a Horse has been frequently trucked for a Dozen of Eggs. Adjutant-General Schmettau had in Exchange for a fat Fowl a Horse worth 600 Livres.

The Austrian and French Armies in Bohemia are separated at present by a Morass, which however is not so broad but that their advanced Guards talk to each other. There happens every day very smart Skirmishes, to the Disadvantage generally of the French, their Cavalry being exceedingly fatigued, which renders them much inferior to the Huslirs.

The Italian Letters which came by Yesterday's Mails should have come last Week; but their Delay was occasion'd by the Courier's going a round-about Way, in order to avoid falling into the Hands of Don Philip, and by that means he came in too late for the Lyons Post.

On Wednesday Night last the Coroner's Inquest sat, at the Bear in Bow-street Covent-garden, on the Body of Henry Moyle, commonly called Gentleman Harry, who was murder'd by Richard Hodges, alias Smallwood, a Distiller in Russell-street, by stabbing him with a large Case Knife in the Left Pap, which Wound was 6 Inches deep and 3 Inches wide) and brought in their Verdict, Wilful Murder.

Concerning Gleets and Seminal Weaknesses
of all Kinds.

ALL judicious Physicians and Surgeons

allow, that nothing is more difficult to cure than
Stubborn Gleets and Seminal Weaknesses, whether occa-
sion'd by too severe purging for Venereal Injuries, violent
Strains, Pollutio fui, or any other Causa whatever; and
that they are dangerous in their Consequences, as well as
difficult to cure, as is certain, since they exceedingly weaken
the Generative Faculties, infecible the whole Nervous System,
often bring on Hectick Heats, a Tabes Dorialis, or Concupi-
tion of the Back, or an Atrophy or Nervous Consumption,
which frequently terminate in Death itself.

All such, therefore, who have the Misfortune to be troubled
with Old or Stubborn Gleets, Seminal Effusions, Involuntary
Emissions, excessive Nocturnal Pollutions, or any Weak-
ness of the Kidneys, Ureters, or Bladder, the Diabetia, or
Inconcinuity of Urine, or Difficulty of holding their Water,
would doubtless be glad to meet with a certain, safe, and
speedy Cure, which they most assuredly may, by taking
only a small Quantity of a transcendent BALSAMICK RE-
STRICTIVE ELECTUAR, now published for a general Good,
after having for many Years been experienc'd never once to
fail perfectly curing the most Stubborn Gleets known, in
a few Days, without Difficulty or Trouble; as also all
other Weaknesses of the Back, Reins, Seminal Vessels, and
Urinary Passages, whicht almost instantly cures, bringing
to rights and restoring all those Parts and Passages to their
natural Tone and pristine Vigour, in a very extraordinary
Manner, and by taking a few Doses of it only.

This transcendent BALSAMICK RESTRICTIVE ELECTUAR,
is neither disagreeable to take, nor occasions the least Dis-
order, but is a wonderful Restorative in all Weakness and Decay
of Constitution of any Kind, and particularly strengthens the
Back, Reins, Seminal and Urinary Vessels to an immense De-
gree, insomuch that in any Debility of them, one Dose of it
does more than ten of any other Remedy yet found out; and
all Persons fatigu'd with Gleets or Seminal Weaknesses of any
Sort, or Weakness of the Urinary Vessels, who take it, will
in three Days time find it so very effectual, that they will be
most agreeably surprized at it.

When a Medicine will infallibly accomplish such a fast,
speedy and perfect Cure of such difficult Maladies, as Gleets
and Seminal Weaknesses are, as this Great Remedy truly and
directly will, even after all other Means and Medicines have
been tried in vain; too much cannot be said in it, and then,
All who ever took it for any of the above-mention'd Purposes,
have readily declared.

The Price is but 6s. a Pot, altho' for its absolute Efficacy,
one Pot alone being sufficient in most Cases to accomplish
a Cure, worth ten times as much, and by the Author's
special Appointment, is to be had only at Mr. Radford's
Toy-shop, at the Rose and Crown against St. Clement's
Church-Yard in the Strand, ready sealed up, with a Book of
Instructions, which whomsoever carefully reads will perfectly
know, when the Gleet or Weakness he is afflicted with,
succeeds a Venereal Injury, whether all the Malignity of
the Foul Disease is intirely eradicated or not.

Note, Ask only for a 6s. Pot of Balsamic Electuary.

ONDON: Printed for T. COOPER, at the Globe in Pater-Noster-Row.
